MONTHLY H&S INSPECTION

Clubhouse & driving range · Scan to start, walk it, sign it off

SCAN TO START

Phone camera · no login, pick your name

1. **Walk every area and answer every line**
   Yes, No or N/A. Equipment cards (AEDs, first aid kits, extinguishers) have an All OK button. Read expiry and service dates off the tags.

2. **No = say what's wrong and take a photo**
   It goes straight into the defect register. Lines with a camera need a photo even when the answer is Yes. Fixed it on the spot? Tick it and say what you did.

3. **N/A needs a reason**
   Only use it when the item genuinely isn't there or isn't due. Can't find an expiry or service date? Tap "Can't find the date". Found equipment that isn't listed? Add it.

! **Anything dangerous: make it safe first**
   Tag it OUT OF SERVICE or block it off, then tell your manager on duty. Sign off at the end with your finger.
