SHED KEYS

Weekend spare keys · Scan every time a key comes or goes

KEY OUT

Taking a key: scan, pick, agree & sign

KEY BACK

Returning a key: scan when it is back

1. **Read and sign OHS-34 Handle Keys first**
   The page sends you to it if you have not signed it yet.

2. **Back by 10am Tuesday**
   Return it straight after your last shift. Keys not scanned back in are called out on Slack.

3. **Keep it on you. Lock the shed every time you leave.**
   Never leave it in a vehicle, machine, locker or toolbox. Never lend or copy it.

! **Lost or missing key? Report it straight away**
   Scan KEY BACK > "Lost or missing key?" and tell your Supervisor. A lost key may result in disciplinary action.
